

Distribution with Promotion

DISTRIBUTION IS IT!

GATE DISTRIBUTION

Do you have a current release or catalog of releases? When you distribute your titles through The Gate you get guaranteed national distribution that includes the major on-line record stores, Apple iTunes® worldwide, Best Buy, FYE, Sam Goody, Camelot, Virgin Records, Tower Records, Barnes & Noble, Borders, plus many others and the best independent record stores in the U.S.

Why We're Different:

Yes, yes, we know there are other companies that promise you "distribution;" however, this is not what is really happening. They are not a part of the national retail distribution system. Ask them! Ask them exactly how they are going to help you promote, distribute and sell your titles. Their way isn't real distribution and just doesn't work. The Gate is real national distribution. Period.

Requirements:

- Title (or titles) must be individually approved by The Gate.
- At least 1,000 retail-ready CDs must be available for immediate distribution (if you need more, The Gate will offer you discounted manufacturing as well!).
- Barcode on title(s) must be issued to Uniform Code Council standards, unique and not in use on any other titles.
- Title(s) must be fully owned and/or fully licensed for distribution by you.
- Title(s) must not be subject to any exclusive distribution contracts or other restrictions.
- For inclusion in Apple's iTunes® Music Store, the rights you grant The Gate for digital distribution must be exclusive (this is a requirement of Apple).
- You must be willing to give up your old ideas about how the music business works and work with The Gate – new music distribution for the new music world!

Only For Qualified Clients Who Meet The Requirements:
